

Want to give back this holiday season?

Support the Mount Dennis Weston Health Centre book program by donating online. Tax receipts available!

What is it? We participate in the “Reach Out and Read” program, offering early literacy guidance for parents and a **FREE**, new book to each child who comes in for the routine check up between 6 months and 5 years old. That’s **9** high quality, age appropriate books per child!

Why we do it? This program promotes healthy caregiver/child relationships, building the foundation and readiness for learning. Families in this program are 2.5 x more likely to read with their children. Almost all young children see healthcare providers during the pre-school years.

How you can help? Occasionally, we receive in-kind donations from organizations like First Book Canada and Scholastic. We rely **mostly** on donations from individuals like you!

Scan the QR code above (with your camera app) to be taken to our donation page.
